OPEN ACCESS & LICENSING

OPEN ACCESS & LICENSING

Editory Press supports open access publishing to make research freely available to readers worldwide. Open access improves visibility, accessibility, and the potential impact of scholarly work.

1) Open Access Models

The open access model depends on the journal. The selected model and any fees will be stated clearly on each journal page.

Diamond Open Access (Diamond OA)

- No charges for authors and no charges for readers.

Gold Open Access (Gold OA)

- The article is freely available to readers.
- An Article Processing Charge (APC) may apply, depending on the journal's policy.

Creative Commons licensing

- Open access articles are typically licensed under Creative Commons (CC) licenses.
- The license defines how others may reuse the work with appropriate attribution.

2) License Types

License options depend on the journal. If multiple licenses are offered, authors may be able to choose from the options below (as stated by the journal):

CC BY 4.0 (Attribution)

- Allows maximum dissemination and reuse, including commercial use, with required attribution.

CC BY-NC 4.0 (Attribution–NonCommercial)

- Allows reuse with attribution for non-commercial purposes only.

Important:

- Always verify the available license options on the journal page before submission.
- License selection may affect reuse permissions and funder compliance.

3) Article Processing Charges (APC) and Waivers

APC policy is defined at the journal level.

APC status

- Some journals may offer \$0 APC (Diamond OA).
- If an APC applies, the fee amount will be displayed on the journal's author information.

Waiver policy

- Waivers or discounts may be available for eligible authors (e.g., researchers without institutional funding or from eligible regions).
- Eligibility and the application process are stated on the journal page.

Note:

To avoid confusion and ensure accuracy, APC amounts should be treated as journal-specific and must be confirmed on the selected journal page.

4) Copyright

Editory Press supports author rights and transparent licensing.

- Authors retain copyright to their work.
- Authors grant the publisher the right to publish the article under the stated license terms.
- Authors can share and reuse their work according to the chosen license (e.g., in repositories, personal websites, teaching materials), with proper citation.

5) Questions

If you have questions about open access options, licensing, or APC policy for a specific journal:

- First: check the journal's "For Authors" information.
- Then: contact the editorial office if clarification is still needed.

Email: info@editorypress.org

Subject: "Open Access/Licensing Question — [Journal name] — [Manuscript ID if available]"

5) Corrections, Retractions, and Misconduct Investigations

Editory Press investigates allegations of misconduct thoroughly and takes corrective action when needed.

Possible actions

- Rejection before publication.
- Publication of a correction (erratum/corrigendum).
- Retraction in severe cases (e.g., fabricated data, plagiarism).
- Notification to institutions or funders when appropriate (depending on severity and evidence).

COPE alignment

We follow COPE guidelines and workflows for handling suspected misconduct and ethical complaints.
